

A MORE FLEXIBLE SOLUTION

TRAFFIC BARRIER

In a factory one small accident can lead to a very large bill.

A-Safe Traffic Barrier is the perfect way to avoid unnecessary damage to your property. It will protect walls, building supports, valuable machinery and vulnerable equipment by repelling wayward fork lift trucks, lorries, factory sweepers and cars.

When used in conjunction with our pedestrian rail attachment they offer exceptional protection for personnel and customers. Gates and Health & Safety signage can be incorporated with the pedestrian rail attachment. The vivid colours of our traffic barriers also make them ideal for highlighting designated vehicle routes.

SIMON BRAMMALL
Project Manager, Office Depot,
European Engineering, Rotherham

Within the European Engineering function of Office Depot we are moving away from the traditional steel barriers in favour of plastic barriers. We have installed the A-Safe plastic barriers in our three newest sites in France and the UK.

Aesthetically they look good and keep on looking good. Watch a fork truck reverse into the barrier. The barrier deflects and absorbs the impact and then returns to its original shape. If this were a steel barrier you would be looking for the spare anchor bolts and the tin of yellow paint.

TRAFFIC BARRIER WITH PEDESTRIAN RAIL ATTACHMENT

MAKE SURE YOU ARE COMPLIANT WITH
HSC WORKPLACE REGULATIONS 1992 AND
EC WORKPLACE DIRECTIVE 89/654/EEC

- Ideal for delineation and segregation of fork lift or vehicle traffic ways
 - High impact resistance
 - Assembly from standard modular components
 - Supplied with post floor fixings
 - Internal or external usage
 - Tested and certified to British Standards
 - Strong, durable and flexible
 - Aesthetically pleasing
 - Highly visible
 - Easy to install
 - No screws or welding required
 - No painting
 - Little or no maintenance
 - Simple to repair
 - Reusable
 - Competitively priced
- Patent pending

In line with our continuous improvement policy we reserve the right to change product specifications without prior notice.
